Reliable Data Transfer Protocol documentation

Introduction

- Sender Module
  - **Sender**
    - **Sender.arrange_pkts()**
    - **Sender.find_recv_base_window()**
    - **Sender.packets**
    - **Sender.run_sender()**
    - **Sender.send_pkt()**
  - **convert_receiver_payload()**
  - **make_checksum()**
  - **make_packet()**
  - **make_sender_payload()**
  - **verify_integrity()**
- Receiver Module
  - **Receiver**
    - **Receiver.add_packet()**
    - **Receiver.base_seq**
    - **Receiver.clear_packets()**
    - **Receiver.get_packets()**
    - **Receiver.max_seq**

        - **Receiver.packets**
        - **Receiver.rebase_packets()**
        - **Receiver.run_receiver()**
    - **convert_sender_payload()**
    - **make_checksum()**
    - **make_packet()**
    - **make_receiver_payload()**
    - **verify_integrity()**
- Reliable Data Transfer Module
    - **run_receiver()**
    - **run_router()**
    - **run_sender()**
    - **test()**
    - **test_with_router()**
- File Reliable Data Transfer Module
    - **make_packets()**
    - **receive_file()**
    - **send_file()**
    - **write_file()**
